

Cisco Can Help Education During COVID-19

Administrative Collaboration

Staff and administrators collaborate in secure digital workspaces:

- Live, large-scale video calls from any device
- Record meetings
- Continue discussion afterwards in secure, private messaging space
- Broadcast messages via custom digital signage

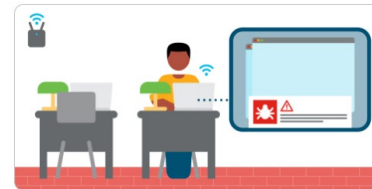

Distance Learning

Give students unlimited access to educational resources, no matter where they are:

- Scale live online courses from 1 to 1000's participants – view students simultaneously
- Provide interactive chat, Q&A & whiteboard during class
- Record & archive course lectures
- Seamlessly integrate into LMS

Security

Create a safe, secure learning environment:

- Protect student personal data
- 1:1 device deployment/update
- Detect network traffic anomalies & malicious behavior
- Defend sensitive school devices
- Enable new threat detection quickly

Transition to Secure Distance Learning

Cisco is here to keep your classrooms connected, so learning doesn't have to stop.
